

Statement on TCC Standing Motion to Dismiss

May 12, 2023 - Statement from Erik Haas, Worldwide Vice President of Litigation, Johnson & Johnson:

This motion is yet another desperate attempt by a small group of plaintiff's law firms—whose financial interests conflict with, diverge from and contravene those of their clients—to deprive all claimants of the right to vote and decide for themselves whether to accept the proposed plan, which a growing and significant majority of claimants already support. The court rulings this week cleared the way for the filing of the plan in the near term, and we will vigorously oppose the effort to derail that filing with this baseless and premature motion.
